

Key Guaranteed Portfolio Fund

Empower Annuity Insurance Company of America (EAICA)

Type of fund

The Key Guaranteed Portfolio Fund (KGPF) is a general account product of Empower Annuity Insurance Company of America (EAICA). Because the KGPF is a general account product offered through the group annuity contract, principal and interest for participant-initiated benefit payments are fully guaranteed by the entire general account assets of EAICA.

Underlying product facts

Inception date: 8/23/2006

Asset class: Stable value/Insurance company general account

Guarantor: EAICA

Investment Manager: Empower Capital Management, LLC

Investment strategy

The investment strategy employed for this product seeks to achieve consistent returns to support a competitive crediting rate. Bonds invested in the general account segment have an average maturity between three and seven years; are investment-grade in quality; and are diversified across a range of fixed-income asset classes such as asset-backed securities, mortgage-backed securities, commercial mortgage-backed securities, commercial mortgages, private equity, etc.

Interest-crediting method

The KGPF credits interest daily to the group contract holder on a portfolio basis. The crediting interest rate may change or stay the same each quarter. The quarterly crediting rate applies to all money deposited in the group contract holder's KGPF account regardless of when it was deposited.

Participant transfer restrictions

A participant may transfer their account balance in the KGPF to any other investment option offered under the plan at any time, with no restrictions or penalties because the KGPF is designed to be a plan's only capital preservation option.

In order to provide participant investments with liquidity (100% for participant-initiated transfers), there cannot be any actively competing investment options (i.e., other guaranteed products, stable value funds, short-term bond funds, money market funds) in the plan. Bond funds of durations longer than three years are not considered competing. If a competing fund is offered without EAICA's approval, all participant transfers shall be suspended (after participants, alternate payees and beneficiaries are notified) until the competing fund is removed.

Based on EAICA's excessive trading policy, participant transfers may be restricted for up to 30 days in the event of excessive participant trading. KGPF transactions are processed as soon as practicable after resolution of closed or disrupted financial exchanges or markets.

Plan sponsor provisions and termination of the group annuity contract

Upon termination of the group annuity contract, the plan sponsor may choose the following options associated with KGPF depending on the provisions in the applicable KGPF rider:

- Receive the payout of the fund in a lump sum with a market value adjustment
- Receive the payout of the fund in a lump sum at book value^{***}
- Mutually agree in writing to any other payout option allowable under applicable law

^{***} If this option is selected, EAICA may defer payment to a date no longer than 12 months in the future.
