## Investment Performance as of 03/28/2024

Performance data quoted represents past performance and is not a guarantee or prediction of future results. The investment return and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost. Current performance may be lower or higher than performance data shown. Performance for a share class before its inception is derived from the historical performance of the oldest share class. If the newer fund has lower expenses, the extended performance is not adjusted for the lower expenses; had it, returns would have been higher. For performance data current to the most recent month-end, please visit [OCERP457.com](http://OCERP457.com).

Carefully consider the investment option's objectives, risks, fees and expenses. Contact us for a prospectus, summary prospectus for SEC registered products or disclosure document for unregistered products, if available, containing this information. Read each carefully before investing.

These returns and fund operating expenses are expressed as percentages. 3, 5 and 10 Year/Since Inception returns shown are annualized. For 10 Year/Since Inception, if the fund was not in existence for 10 years, returns shown are since inception. If the fund is less than one year old, returns are not annualized.

Performance returns reflect deductions for fund operating expenses. For variable annuity options, returns also reflect a mortality and risk expense charge and an average Contract Maintenance Charge (CMC). Your plan may have higher, lower or no CMC charges and may assess a plan administrative fee that was not deducted in the returns shown above.

Expense ratios provided are the Funds' total annual operating expense ratios, gross of any fee waivers or expense reimbursement.

A ticker symbol is not available for those funds that are exempt from SEC registration.

The net expense ratio is less applicable fee waivers or expense reimbursements the investment adviser and/or administrator may have agreed upon, either voluntary or by contractual agreement; the gross expense ratio is not. Voluntary fee waivers and reimbursements may be modified or terminated at any time. Additional information can be found in the Fund's prospectus and/or other disclosure documents regarding effective dates and/or if waivers or reimbursements are voluntary or by contractual agreement. Absent waivers or reimbursements, the performance would have been lower.

<sup>1</sup> Asset allocation and balanced investment options and models are subject to the risks of the underlying investments.

<sup>2</sup> Certain Empower Funds are managed by sub-advisers who manage other mutual funds having similar names and investment objectives. While their investment management may be similar to, or modeled after, those other mutual funds, the Empower Funds are not directly related to any other mutual funds. Consequently, the investment performance and other features of other mutual funds and any similarly named Empower Fund may differ substantially.

<sup>3</sup> Investment options offered through a group fixed and variable deferred annuity issued by Empower Annuity Insurance Company of America, Corporate Headquarters Greenwood Village, CO; or in New York, by Empower Life & Annuity Insurance Company of New York, Home Office: New York, NY.

<sup>4</sup> This fixed fund is offered through a group fixed and variable deferred annuity contract issued by Empower Annuity Insurance Company of America. A ticker symbol is not available for this investment option.

<sup>5</sup> A collective trust is not a mutual fund and is exempt from SEC registration. Designed for and exclusively sold to qualified retirement plans and their participants, the funds are not available to individual retail investors.

<sup>6</sup> Foreign securities involve risks, such as currency fluctuations, economic changes and political developments. These risks may be heightened in emerging markets, which may also experience liquidity risk.

<sup>7</sup> Securities of small and mid-size companies may be more volatile than those of larger, more established companies.

<sup>8</sup> Bond prices generally fall when interest rates rise (and vice versa) and are subject to risks including changes in credit quality, market valuations, inflation, liquidity, and default. High-yield bonds have a greater risk of default.
