

City of Memphis 457(b) Deferred Compensation Plan - 767762-01

Investment Performance as of 04/30/2024

Performance data quoted represents past performance and is not a guarantee or prediction of future results. The investment return and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost. Current performance may be lower or higher than performance data shown. Performance for a share class before its inception is derived from the historical performance of the oldest share class. If the newer fund has lower expenses, the extended performance is not adjusted for the lower expenses; had it, returns would have been higher. - ¹ * Performance returns were not available at the time of production. Performance returns will be published once the information becomes available.
- ² The date in the name of the target date fund is the assumed date of retirement. The asset allocation becomes more conservative as the fund nears the target retirement date; however, the principal value of the fund is never guaranteed.
- ³ Benchmark index returns are supplied by Morningstar, Inc. There may be another benchmark that is more specific to each of the funds listed under the broad asset class. Please refer to the fund's prospectus for more specific information as to the fund's actual benchmark index.
- ⁴ A benchmark index is not actively managed, does not have a defined investment objective, and does not incur fees or expenses. You cannot invest directly in a benchmark index.
- ⁵ This fixed fund is offered through a group fixed and variable deferred annuity contract issued by Massachusetts Mutual Life Insurance Company (MassMutual). A ticker symbol is not available for this investment option.

- ⁷ Securities of small and mid-size companies may be more volatile than those of larger, more established companies.
- ⁸ Bond prices generally fall when interest rates rise (and vice versa) and are subject to risks including changes in credit quality, market valuations, inflation, liquidity, and default. High-yield bonds have a greater risk of default.
- ⁹ Specialty funds invest in a limited number of companies and may be more volatile than a more diversified fund.
- ¹⁰ This investment option is no longer offered to new participants. However, ongoing deposits and transfers out of the investment option are still allowed for participants who were contributing to this investment option prior to its closure date to new participants.
- ¹¹ The net expense ratio is less applicable fee waivers or expense reimbursements the investment adviser and/or administrator may have agreed upon, either voluntary or by contractual agreement; the gross expense ratio is not. Voluntary fee waivers and reimbursements may be modified or terminated at any time. Additional information can be found in the Fund's prospectus and/or other disclosure documents regarding effective dates and/or if waivers or reimbursements are voluntary or by contractual agreement. Absent waivers or reimbursements, the performance would have been lower.
