This investment option is offered through an individual flexible premium variable annuity, which is sold by prospectus only. Before purchasing an annuity, you should carefully consider its investment options' objectives and all the risks, charges and expenses associated with the annuity and its investment options. For this and other important information, you can view the prospectus for the annuity or its underlying funds online. Please read prospectuses carefully before investing or sending money.

An investment in a Money Market Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

For additional fund information, please refer to the Fund Fact Sheet or Prospectus.

⁴ Certain Great-West Funds are managed by sub-advisers who manage other mutual funds having similar names and investment objectives. While their investment management may be similar to, or modeled after, those other mutual funds, the Great-West Funds are not directly related to any other mutual funds. Consequently, the investment performance and other features of other mutual funds and any similarly named Great-West Fund may differ substantially.

⁶ Offered through a group fixed and variable deferred annuity issued by Great-West Life & Annuity. Returns prior to the inception date of the separate account are hypothetical and are based on the inception date of the underlying investment option, adjusted to reflect the deduction of fees and charges associated with the annuity contract. A ticker symbol is not available for this investment option.

⁷ Foreign investments involve special risks, including currency fluctuations, taxation differences and political developments.

⁸ Equity securities of small and mid-size companies may be more volatile than securities of larger, more established companies.

⁹ Compared to more highly rated securities, high-yield bond investment options are subject to a greater risk, including the risk of default. A bond fund's yield, share price and total return change daily and are based on changes in interest rates, market conditions, economic and political news and quality and maturity of its investments. In general, bond prices fall when interest rates rise and vice versa.
