INVESTMENT OPTION	OBJECTIVE
International	
<i>American Funds EuroPacific Gr R6</i> ⁴	The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.
<i>American Funds New Perspective R6</i> ⁴	The investment seeks long-term growth of capital; future income is a secondary objective. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its primary investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth. In pursuing its secondary objective, the fund invests in common stocks of companies with the potential to pay dividends in the future.
<i>Fidelity Diversified International Fund</i> ⁴	The investment seeks capital growth. The fund normally invests primarily in non-U.S. securities. It normally invests primarily in common stocks. The fund allocates investments across different countries and regions. It uses fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.
Small Cap	
<i>AB Small Cap Growth I</i> ⁵	The investment seeks long-term growth of capital. The fund invests primarily in a diversified portfolio of equity securities with relatively smaller capitalizations as compared to the overall U.S. market. Under normal circumstances, the fund invests at least 80% of its net assets in equity securities of smaller companies. For these purposes, "smaller companies" are those that, at the time of investment, fall within the lowest 20% of the total U.S. equity market capitalization (excluding, for purposes of this calculation, companies with market capitalizations of less than \$10 million).
<i>American Beacon Small Cp Val Inst</i> ⁵	The investment seeks long-term capital appreciation and current income. Under normal circumstances, at least 80% of the fund's net assets (plus the amount of any borrowings for investment purposes) are invested in equity securities of small market capitalization companies. These companies have market capitalizations of \$5 billion or less at the time of investment. The fund's investments may include common stocks, real estate investment trusts ("REITs"), American Depositary Receipts ("ADRs") and U.S. dollar-denominated foreign stocks traded on U.S. exchanges (collectively, "stocks").
<i>TIAA-CREF Small-Cap Blend Idx Inst</i> ⁵	The investment seeks a favorable long-term total return, mainly through capital appreciation, by investing primarily in a portfolio of equity securities in smaller domestic companies based on a market index. Under normal circumstances, the fund invests at least 80% of its assets in equity securities included in its benchmark index (the Russell 2000(R) Index). A small-cap equity security is a security within the capitalization range of the companies included in the Russell 2000(R) Index at the time of purchase. The Russell 2000(R) Index measures the performance of the small-cap segment of the U.S. equity universe.
Mid Cap	
<i>Hartford MidCap R6</i> ⁵	The investment seeks long-term growth of capital. The fund invests at least 80% of its assets in common stocks of mid-capitalization companies. It may invest up to 20% of its net assets in securities of foreign issuers and non-dollar securities. The sub-adviser defines mid-capitalization companies as companies with market capitalizations within the collective range of the Russell Midcap and S&P MidCap 400 Indices.
<i>T. Rowe Price Mid-Cap Value I</i> ⁵	The investment seeks to provide long-term capital appreciation. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in companies whose market capitalization (number of shares outstanding multiplied by share price), at the time of purchase, falls within the range of the companies in either the S&P MidCap 400 Index or the Russell Midcap Value Index.
Large Cap	
<i>Dodge & Cox Stock Fund</i>	The investment seeks long-term growth of principal and income; a secondary objective is to achieve a reasonable current income. The fund invests primarily in a diversified portfolio of equity securities. It will invest at least 80% of its total assets in equity securities, including common stocks, depository receipts evidencing ownership of common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund may invest up to 20% of its total assets in U.S. dollar-denominated securities of non-U.S. issuers traded in the United States that are not in the S&P 500.
<i>T. Rowe Price Growth Stock</i>	The investment seeks long-term capital growth through investments in stocks. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of a diversified group of growth companies. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.
<i>Vanguard Institutional Index Instl Pl</i>	The investment seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

INVESTMENT OPTION	OBJECTIVE
Balanced	
<i>PIMCO All Asset Instl</i>	The investment seeks maximum real return, consistent with preservation of real capital and prudent investment management. The fund is a "fund of funds," which is a term used to describe mutual funds that pursue their investment objective by investing in other funds. It seeks to achieve its investment objective by investing substantially all of its assets in the least expensive class of shares of any actively managed or smart beta funds (including mutual funds or exchange-traded funds) of the Trust, or PIMCO ETF Trust or PIMCO Equity Series, each an affiliated open-end investment company, except other funds of funds. It is non-diversified.
Bond	
<i>Baird Aggregate Bond Instl</i> ⁶	The investment seeks an annual rate of total return, before fund expenses, greater than the annual rate of total return of the Barclays U.S. Aggregate Bond Index. The fund normally invests at least 80% of its net assets in the following types of U.S. dollar denominated debt obligations: U.S. government and other public sector entities; asset backed and mortgage backed obligations of U.S. and foreign issuers; corporate debt of U.S. and foreign issuers. It only invests in debt obligations rated investment grade at the time of purchase by at least one major rating agency or, if unrated, determined by Robert W. Baird & Co. Incorporated to be investment grade.
<i>Fidelity Inflation-Prot Bd Idx Instl</i> ⁶	The investment seeks to provide investment results that correspond to the total return of the inflation-protected sector of the United States Treasury market. The fund normally invests at least 80% of assets in inflation-protected debt securities included in the Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L). It engages in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure.
Fixed	
<i>Certificate Fund Post-2009 84 months</i> ²	As a general account product offered through a group annuity contract, participant principal and interest are fully guaranteed by the entire general account assets of GWL&A, which as of December 31, 2014 were \$30.6 billion and include \$2.1 billion in shareholder equity and accumulated surplus. General Account liabilities as of December 31, 2014 were \$28.5 billion. This means that GWL&A holds an additional 7.5% in capital for every dollar of liability we have. These assets are primarily high-quality, fixed income bonds, with 99% rated investment-grade and 28.2% rated AAA as of December 31, 2014.
<i>South Carolina Stable Value Fund</i> ²	This relatively conservative investment seeks to preserve principal value and provide a relatively stable rate of interest income. The objective of the Fund is to achieve returns, which over time exceed the returns on bank savings accounts and money market funds. The Fund invests in securities issued by the U.S. Government or one of its agencies, as well as high-grade corporate bonds.

Expense ratios provided are the Funds' total annual operating expense ratios, gross of any fee waivers or expense reimbursement.

² This fixed fund is offered through a group fixed and variable deferred annuity contract issued by Great-West Life & Annuity Insurance Company. A ticker symbol is not available for this investment option.

³ A collective trust is not a mutual fund and is exempt from SEC registration. Designed for and exclusively sold to qualified retirement plans and their participants, the funds are not available to individual retail investors.

⁴ Foreign investments involve special risks, including currency fluctuations, taxation differences and political developments.

⁵ Equity securities of small and mid-size companies may be more volatile than securities of larger, more established companies.

⁶ Compared to more highly rated securities, high-yield bond investment options are subject to a greater risk, including the risk of default. A bond fund's yield, share price and total return change daily and are based on changes in interest rates, market conditions, economic and political news and quality and maturity of its investments. In general, bond prices fall when interest rates rise and vice versa.

documents.

² This fixed fund is offered through a group fixed and variable deferred annuity contract issued by Great-West Life & Annuity Insurance Company. A ticker symbol is not available for this investment option.

³ A collective trust is not a mutual fund and is exempt from SEC registration. Designed for and exclusively sold to qualified retirement plans and their participants, the funds are not available to individual retail investors.

⁴ Foreign investments involve special risks, including currency fluctuations, taxation differences and political developments.

⁵ Equity securities of small and mid-size companies may be more volatile than securities of larger, more established companies.

⁶ Compared to more highly rated securities, high-yield bond investment options are subject to a greater risk, including the risk of default. A bond fund's yield, share price and total return change daily and are based on changes in interest rates, market conditions, economic and political news and quality and maturity of its investments. In general, bond prices fall when interest rates rise and vice versa.

⁷ A benchmark index is not actively managed, does not have a defined investment objective, and does not incur fees or expenses. Therefore, performance of a fund will generally be less than its benchmark index. You cannot invest directly in a benchmark index.

⁸ Benchmark index returns are supplied by Morningstar, Inc. There may be another benchmark that is more specific to each of the funds listed under the broad asset class. Please refer to the fund's prospectus for more specific information as to the fund's actual benchmark index.
